### MINING, BUSINESS AND STOCKS

# QUIET FORENOON ON THE EXCHANGE

Utah Stocks Lead and Appear To be Holding Their Own.

SECOND SALES MARK DROPS.

Totals for Morning Are Light Showing Persistent "Sympathetic" Feeling -May Day Fairly Active.

A light day's trading was recorded for this morning on the local mining stock exchange. There was practically no stocks sold but Utahs and they appear to be holding their own in these days of ups-and-downs, Carissa, for which 57 was bid yesterday morning, sold for 50 this morning, 100 shares changing hands during the regular call and 400 on the open board. May Day was a fairly active seller at 30 and 2952, 1,500 shares going at the first figure and 500 at the second. Both sales were made during the regular call. Nevada Hill is holding its own; 500 sold at \$3.60 and 400 at \$3.57 1/2. Star Con. is another stock which refuses to make any disheartening silves downwards. Two sales were made on the regular call, 800 at 36 and 500 at 35. Utah demanded \$1.97\cdots this morning, 100 moving at this price. The day's sales and closing quotations follow:

Car of Ore to be Tested in This City

-- Correll Copley Company

Formed.

Ford W. Correll is home from a trip

to Humboldt county, where he, with

other prominent investors, has large

interests. Mr. Correll paid special at-

tention to the Nevada Superior, one of

his best holdings. His consulting en-

gineer and a number of Salt Lakers

accompanied him on the trip and re-

turned to this city with him. Mr. Cor-

reil announces that plans are complete

COMPANY FORMED. Mr. Correll, besides being at the head of a number of prospering companies is president of the Correll-Copley & Company mine investments, etc., of-ganized in this city a day or so ago. The other officers are Ed. Copley, treasurer, and John W. Geiger, secretically in the control of the tary. The company members are members of the Sait Lake mining stock exchange and officet have been opened in this city. Chicago and Rockford, Illinois, Mr. Correll's home town.

"CHUBBERS" ARE ACTIVE. Small Outsiders Buy Broken Lots on

"Street" During Severe Depression. There was one feature of the flurry in "the street" resulting in record-breaking, heart-breaking and firm-breaking drops in all stocks, which is breaking drops in all stocks, which is now coming in for some consideration by reviewers. The unloading of stocks by heavy holders of railway and other shares brought on a violent depression. It has been noticed that, despite the flurry and "panicky" conditions small-lot buying is on in merry swing. While the bears were dumpting hundreds of big blocks on to the board creating no end of excitement, small lots, broken lots, they're called, were being taken up. It is now believed that this buying of broken lots has been heavier than ever before. Brokerage houses in New

### Why should you join the **Deseret Building Society**

BECAUSE:

It costs only 10 cents per share (\$100 each) to subscribe.

Monthly payments of fifty cents per share are received.

share are received.

At the year's end a dividend of all earnings of the Society except a reserve fund is added to your credit.

The reserve fund is 20 per cent of the net earnings and is fairly divided to each series of Stock as the stock It takes 10 years and a half to ma-

In that time you would pay in \$63 per share. Your stock would then mature and you would draw out \$100

per share.

Stockholders can withdraw ALL the money paid in (except the 10 cents per share entrance fee) at any time per share endance less, at any time receiving their money in the order in which they apply for withdrawal. They also get all dividends declared on their stock up to date of with-

on their stock up drawal.

The Society is for home builders.
It money is loaned only for the purpose of building, buying or improving a home; or to remove a mortage alaba home. Stockholders by giving proper se-curity can borrow \$100 for each share of stock subscribed for; but are not

bequired to obtain a loan in order to become a stockholder.

The President, Vice President, Treasurer and Directors serve without pay. The secretary is the only onld officer and he is paid only for could clerical work.

Domestic Science does not count for much in bread making unless you have the flour that responds to your skill and painstaking.

HUSLER'S FLOUR!

York report that they never before had so many orders placed for buys of from five to 50 shares—sometimes a little more. These orders came from all parts of the country, showing a number of things. For one thing the vast area represented by the buying orders as explained show that there are thousands of persons throughout the United States who have money which they feel they can invest in big stocks. It is also evident that they study the market closely and have ideas about the game, themselves. Thirdly, it may be explained that these thousands throughout the United States believe the stocks are all right and feel that the worst part of the storm is the time to get them low. The big investors or bears, unload the most precious stocks into the pit until they were selling cheaper than they have in the history or the exchange. Orders began pouring in immediately; the outsiders thought it an excellent time to acquire dividend-paying stock at unheard of reductions. The transfer offices in New York have been congested by small packages of stock undergoing transfer. The activity displayed by utter strangers to the pit is an expression of confidence among the people, themselves and is taking much stock out of the speculative market. Its effect will not be felt at once, but it will ald materially in bringing the now upset market to an ordinary state of affairs.

TAKE UP MORE GROUND. for the installation of a 50-ton concentrating mill on the property and it is expected this will be completed and ready for service by the first of August. The ore of the Nevada Superior is an ideal milling ore. The plant is to be a wet concentrating affair and water will be obtained by superior from the

TAKE UP MORE GROUND.

Jennie Crowd Gets Amethyst and Other Claims in Iron County.

Fred R. Davis, Charles Short associates are probably as active and prominent in local mining circles as any circle, and they are devoting their time to Iron county in general and Gold Springs in particular. Some time ago they formed the Jennie company and now have a bonanza in that prop-erty. A few days ago they organized erty. A few days ago they organized the Jennie Extension company, taking five claims to get a continuation of as many ledges traced through the Jennie property to the south. Yesterday they closed finishing details of another deal whereby they took over for cash a controlling interest in the Interstate Mining & Reduction company, a California corporation owning the Wild Irish, Amethyst and other valuable claims near the Jennie. The property is a known mine, but internal dissension among the members were the reason for their selling. The ledge on property is a known mine, but internal dissension among the members were the reason for their seiling. The ledge on these claims can be traced for \$,000 feet on the surface, and in some places it is one hundred feet wide. Gold is found at any point of the ledge. At the Amethyst end a shaft has been sunk for a distance of 132 feet and a cross cut shows the ledge to ten feet width at depth. Ore carrying \$0.50 in gold, has been taken from this crosscut. A drift extended sixty feet to the north yields \$8.20 gold ore in its face. On the Wild Irish a 20-foot holes has exposed ore going \$20 per ton for three feet. The property has three cottages, blacksmith shop, stable, and stores of lumber and supplies. The property is only 12 miles from Modena. All in all the property is considered an excellent buy in every respect. buy in every respect.

#### MORE RAILROAD TALK.

Alta Hammers Away in "Get-Tthere-Eli" Style for Facilities.

looks as if Alta is to come into her own after many years of longing and hoping and dividend paying, in spite of disadvantages. The Columspite of disadvantages. The Coumbus Con. is to get better shipping facilities as a first step in the program mapped out for the little camp. That is, the Columbus Con. is to be served by the tramway of the Continental Mines and Smelting corporation. The two companies have signed articles which grant the Con. the privilege of using the Continental company's transway to its present terminus on Tanner's flat. This eliminates four miles from the wagon haul now cessary in getting the Con's ore to railroad station at Sandy. Handily, the four miles cut out of the overland route constitute the worst portion of the wagon road. The Con. during the past year shipped 30 to 40 tons of ore per day, but with tramway-rights the mine can ship at least 100 tons, an increase of over 50 per cent. The mine has the ore, but the great difficulty has always been the inconvenience of a wagon haul with this, even, not offered ning months in the year. The winters in the hills are severe. Just a short time ago it was impossible to get into Alta and the mail carrier, an expert railroad station at Sandy. Handily Alta and the mail carrier, an expert man on snow-shoes and at home in the hills, was not permitted to start out on his journey. The camp is snow bound during the worst portion of the winter and with snow-slides and land slides in spring the roads are still bad. It is not until well into the summer and towards fall that the roads are clear and unbroken. Their terrific grades are bothersome always.

grades are bothersome always.

President Tony Jacobson of the Columbus Con. is pleased with the shipping arrangements just made and regards this as the first step in the movement towards getting the longedfor and prayed-for facilities. He says he expects the question of transportation to be settled this year and to have it settled finally means to have the Rio Grande build a branch from Sandy to Wasalch to connect with the Columbia. to Wasatch to connect with the Coh-tinental's tramway at that point. With a through route like this offered the Columbus Con. can ship at least 200 tons per day. This from one mine in a camp where there are a number, promises totals with weight to them. Alta will be again one of Utah's best to Wasatch to connect with the producers when she gets a railroad.

#### CONCENTRATES.

The Horn Silver will distribute a 5 cent dividend declared for the last of this month.

The first annual meeting of the Nevada Hills Mining company will be hel din Goldfield on the 19th of April. Besides electing a board of directors to serve for the ensuing year other busines of vital importance will come before the meeting.

The Bingham Consolidated Mining & Smelting company has been made defendant in a suit filed in the district court by John G. Labrum to recover damages in the total sum of \$7.560 for alleged injuries to his farm and also to the farm of Frank How, caused by the fumes and smoke from defendant's smelter. Mr. Howe assigned his claim to the plaintiff in the action. The Deep Creek Mining company of this city has filed its articles of incorporation with the county clerk. The capital stock of the company is \$20,000, divided into shares of the par value of 10 cents each. J. S. Cobbley is president: P. E. Sullivan, vice president: T. H. Hazel, secretary and treasurer. The company owns nine claims located in the Clifton district, Toocle county.

# MARKET SHOWED MUCH BUOYANCY

Bears Bid Actively for Large Blocks of Stocks on Rapidly Rising Prices.

REALIZING WAS EXTENSIVE.

Caused Some Sagging and Reaction, There Being a Quite General Reduction of Advances.

New York, March 21 -- A buoyant upshoot in prices with the first dealings in stocks today reflected the further alarm of the bears for their uncovered condiion in the market. They bid actively for large blocks of stocks at rapidly ris ng prices. The results were opening gains in Smelting of 4%, Canadian Pacific 4, Union Pacific 3%, the Hill stocks, Reading. St. Paul. Atchison, U. S. Steel pre-ferred, Anaconda and Amalgamated Copper 2 to 2% and many other active stocks

between 1 and 2 points.

Opening prices were not long maintained, the market sagging under the weight of realizing. Reactions did not reduce the dvances much over a point. A subsequent rise brought Reading and Great North-ern preferred up to a higher point than at the start. Additional gains carried Great Northern preferred up 31/2, Reading American Tobacco and Republic Steel 2. Buying was resumed in volume, with the result of making a higher level of prices han the opening.

Reading was pushed up to 102 in an ef-fort to offset the unfavorable effect pro-

fort to offset the untavorable effect pro-duced by the decline in Pennsylvania. This failed to arrest the general selling, which sent the list back to within a point of yesterday's closing.

The market sagged with occasional in-terruptions during the afternoon, causing a pretty general reduction of advances. In many instances stocks were quoted be-low yesterday's closing, notably the U. S. Steel stocks and Amalgamated Cop-per.

per.

The market closed moderately active and irregular. The fall in prices continued until Eric sold 3½ below last night, Smelting 2½. Pennsylvania 2. Northern Pacific and U. S. Steel 1½. Many other stocks, including the Harrimans and Atchison sold a fraction below last night. From that level there was some recovery, but it was not well held. Lackawanna sold at an advance of 10 points.

London. March 71.—Two failures were announced upon the stock exchange to-day but neither of them was of any importance from the market point of view. The tone in all departments was decidedly more cheerful. Americans fully responded to yesterday's sharp advance in New York. No serious trouble is anticipated. The action of Secy. of the Treasury Cortelyou in relieving the money situation in New York by depositing in the banks there customs receipts to the extent of \$15,000,000, has proved of international value. Business is still restricted, as attention is mostly taken up with the conclusion of the settlement. Americans opened a good deal above parity and advanced from the start. There was a alight reaction at the start, but it was only fractional. Consols were firm at 85% with an improving tendency.

PARIS. LONDON.

PARIS.

Berlin, March 27.—Prices on the bourse today were firm and all the departments especially the Americans, showed im-provements.

#### PRODUCE.

CHICAGO.

CHICAGO.

Chicago, March 27.—The wheat market today opened steady on a fair demand which was based upon small northwestern receipts and unfavorable weather in Kansas for the crop. Later the market weak-ened on account of realizing sales. May wheat opened unchanged to ¼ higher at 554 to 555, sold at 76 and declined to 155,6755.

The corn market opened firm but soon cased off on selling orders which were based upon local receipts, which were above expectation. May opened a shade higher at 654,6765, sold at 454, and declined to 455.

The cats market opened steady with a light trade. The early market lacked features. May oats opened unchanged to is higher at 45 to 42 and sold at 425.

Provisions were strong. A 5 to 19 cent advance in the price of live hogs was the chief strengthening influence. May pork opened 20 cents higher at 15.55; fard was up 10 cents at 8.50.

The low point for the May option was 555. The close was steady with May unchanged at 754.

Trading was very light and the market held steady all day. The low point for the May option was 555. The close was steady with May a share lower at 452,656.

WOOL.

ST. LOUIS. St. Louis, March 27.—Wool, steady, Territory and western mediums, 24728; fine mediums, 18621; fine, 14617. BOSTON.

Boston, March 26.—The feature of the wool market this wock is the absorbing interest in the foreign wool situation. In domestic wool only a moderate volume of sales has taken place. Prices are strong, however. Fulled wools are quiet on the whole. Such territories as are offered are not meeting with extensive sales. There is a demand for half-blood, but not much to be had. Quotations:
